CHI-LINK MESSAGE

We have had the wonderful privilege of Frank Weng from Chi Link attending our office to provide massages for company employees for the last 18 months.

Without exception, everyone has been very happy with the massages and reflexology. Frank has a calm, warm and very pleasant personality, and provides a service in-situ which is most convenient to company employees.

Frank provides a massage chair so the recipient of the massage remains seated, and there is no need to remove any clothing – perfect for the work environment.

Frank offers a very flexible range of times for massages and the reliability of his attendance and adherence to a pre-arranged timetable is again most suitable to the work environment.
